

The Tribe Team Golf

The Tribe Team Golf Program is designed to introduce students to competitive golf. Players will have a number of practices throughout the summer and four competition dates. Practices will consist of working on all aspects of the game, including fundamentals, iron play, chipping, putting and how to navigate a golf course. The competition format will be a two person scramble. Players may choose their own partner, or the staff can pair them up once we start practicing based on skill level. More information will come on how the tournaments will work once we get closer.
